## Glades Savings And Loan Group Enjoys Continued Growth

At the annual meeting of the Everglades Federal Savings and Loan Association held in Belle Glade on Wednesday of this week, the following report was made to the directors and stockholders by Hugh J. Bratley, secretary of the association:

At the close of 1948 the Directors and management of your Everglades Federal Savings and Loan Association are pleased to report another year of gratifying achievement and progress. The accompanying financial statement attests the excellent condition of the Association and the following facts and figures are given to give a little more detail of our operations for the year.

The assets of the Association have increased \$613,979.66, nearly 50 percent over last year. The savings of members were increased \$431,608.27, or about 30 percent over the previous year. To give you an idea of the volume of business we do our average monthly savings deposits for the past six months was \$24,436.45, compared with \$22,477.80 for the same period. An all-time high.

During the year we have made 157 new and re-financed loans.

Our earnings for the year have been very gratifying, largely due to our low overhead and the economical manner in which the business is carried on. The earnings for the year was \$94,919.08. Our operating expense was \$20,186.27. We have paid out in dividends, by check and credits to Savings Accounts \$41,314.54. The reserves, which are the backbone of the Association, have been increased \$33,418.27. Our dividends paid and credited was our usual 3 percent per annum.

During the year we have purchased a site for a new building, so by the time of the annual report next year we will probably be in our new location which will give us much more room for operations.

Your appraisers have followed a conservative policy in evaluating the properties that secure our loans and your Directors have sought maximum safety rather than a high volume in making loan commitments and 1949 will see an even more conservative line of operation by the Directors.

Our thanks and appreciation go to all our members for their splendid support and expressions of confidence they have made in the Association and the Directors who shape its policy.

R. Fine and Harold Rabin of Belle Glade also plan to attend the convention.

## New Dial System On All Phones In Belle Glade Area

One minute after midnight Saturday night the new dial telephone system will be cut in for use in the Belle Glade area. Patrons in the South Bay and Lake Harbor area will also benefit from the change over.

A new building has been erected to house the newly improved telephone exchange and much new equipment has been installed. A new underground cable costing in the neighborhood of \$350,000 has been installed between West Palm Beach and Belle Glade. A new cable between Pahokee and Belle Glade was installed during the past year.

Pahokee and Canal Point patrons of the phone company may avail themselves of the new extended scope service which provides a special service between the two communities for an extra charge. Users of the extra charge extended scope service may call any number in either exchange by first dialing 8. Example: A Belle Glade customer may dial directly into The Everglades News office by dialing 8-2661. The deal works both ways. The Everglades News may dial The Belle Glade Herald by dialing 8-2056.

Quite a ceremony is scheduled tomorrow night at midnight in Belle Glade when phone company officials and city officials of Belle Glade will be present at the zero hour for the changeover.

## TELEPHONES Belle Glade 816 Pahokee 592

According to old files of The Everglades News it hasn't been many years since telephone listings in Pahokee outnumbered those in Belle Glade two-to-one. Not so today. The new directory just off the press, shows that Belle Glade is way out front again this year (as in several years past) with 816 phones while Pahokee has only 592.

If we were in an editorializing mood today we could point out a lot of things that the above paragraph means. But, most of our readers are intelligent so without comment we pass the figures on to them. Again—816 phones in Belle Glade against 592 in Pahokee.

## Drainage District Reorganizes With Millers As Attys.

The new Everglades Drainage District board was organized Wednesday at a meeting in West Palm Beach with the recently-appointed commissioners voting to make Stacy Rogers of Okeechobee chairman and general manager, W. B. Leak of West Palm Beach was named vice chairman.

Other members of the board are: W. D. Hilsback of Miami, the only holdover member, Broward Daniels of Moore Haven and J. Henry Smith of Pompano. Hilsback had been chairman until the organization meeting this week.

The board voted to retain the law firm of Miller and Miller (Wareing T. Miller and his father Newman T. Miller) of West Palm Beach as attorneys for the board at an annual salary of \$10,000.

The governor's appointees on the board were wise in selecting the Miller law firm as attorneys for the board. Young Miller is a close friend of the governor and during the next four years South Florida and the Everglades Drainage District will profit by having such a close contact with Tallahassee. In Wareing's father the board will have benefit of many years of successful law practice and safe and sane decisions can be expected when his advice is sought. It is a happy combination and the EDD can rest assured that it will have cooperation from over government subdivisions in this section of Florida with the Miller and Miller combination handling the legal affairs of the district.

## Snyder Chevrolet Shows New Models Pahokee Tomorrow

Tomorrow—January 22—marks the official opening of the Snyder Chevrolet Company in Pahokee and the date coincides with the showing of the new 1949 Chevrolet, according to L. C. Snyder, owner of the concern who recently bought out Christian Chevrolet Company.

Coming to Pahokee from Michigan where he owned and operated a Chevrolet agency, Mr. Snyder during the few weeks that he has been here has become enthusiastic over the Glades and surrounding territory. The Snyder also purchased a home on Bacom Point Road—that formerly owned by Mr. and Mrs. W. A. Cross. They have two boys who attend Pahokee schools.

Commenting on the new models of the Chevrolet to be shown for the first time tomorrow Mr. Snyder said: "The latest model has been completely restyled. It is lower, wider and more distinctive than any previous series. Not only does the design introduce superior beauty to the lowest priced ranks, but numerous body and chassis improvements promise to add to Chevrolet's reputation for comfort, safety and convenience."

"The first impression of the new Chevrolet is one of smart styling, structural strength and generous dimensions," Mr. Snyder added. "The entire passenger compartment has been moved forward, lengthened, broadened and lowered, affording a pleasing balance in proportions. Rearwardly the front fenders have been absorbed into the body, their vertical planes built flush with the doors. Crowns of the fenders have also been raised to fit more snugly into the hood and low, clean ensemble of the grille. To add grace and protect body surfaces, a partial rear fender has been retained."

"From the passenger's standpoint perhaps the chief improvement in bodies is the immense increase in glass area. All windows have been deepened and widened. The windshield takes full advantage of broader bodies, curving inward at the narrowed pillars to improve sideview as well as forward vision."

The Snyder concern recently installed much modern and up-to-date equipment for benefit of the (Continued from Page 8)

## Cinematic Chatter

By Malcolm Miller

"Pick of the pictures" . . . The best picture of the week is **"The Babe Ruth Story."** A four bell picture—starring William Bendix and Claire Trevor! . . . Heart throbs, Comedy, thrills and inspirational story . . . make this one of the season's most entertaining films . . . Babe Ruth was an idol of kids and baseball fans . . . but baseball is only a part of this fine picture. So far ladies, men and especially kids, I recommend **"The Babe Ruth Story."** (Signed) Jimmie Fiddler.

Folks that is all the endorsement you need on this show. I am only going to say . . . It plays at the Prince Theatre Sunday-Monday . . . And Don't Miss It!!

See you at the movies—Mal.

## CHURCH OF CHRIST, SCIENTIST

"TRUTH" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, January 23.

The Golden Text is: "Thou, O Lord, art a God of compassion, and gracious, long-suffering, and plenteous in mercy and truth" (Psalms 86:15).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Make a joyful noise unto the Lord, all ye lands. . . . For the Lord is good; his mercy is everlasting; and his truth endureth to all generations" (Psalms 100:1, 5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "To seek truth through belief in a human doctrine is not to understand the infinite. We must not seek the immutable and immortal through the finite, mutable, and mortal, and so depend upon belief instead of demonstration, for this is fatal to a knowledge of Science. The understanding of truth gives full faith in Truth, and spiritual understanding is better than all burnt offerings" (286:1).

The Girls Auxiliary, First Baptist WMO, are rehearsing a play, "Mary Smith Meets Mr. People" under the direction of Mrs. Ralph Grimes, counselor, which the group plans to present next month.

## Watson - Martin

Miss Mayo Florence Watson, daughter of Mr. and Mrs. Ronald Watson of Pahokee, and Albert Gordon Martin of Milledgeville, Ga., were married at the Chapel on the Hill, Oak Ridge, Tenn., Saturday, Jan. 8, at 5 p. m. The vows were read by Rev. Frank Porter as the couple stood before the altar which was lighted with white tapers in branched candelabra and decorated with white gladioli and fern.

The bride wore a light aqua wool gaberdine suit with black accessories and a corsage of white orchids. Her only attendant was Miss Caroline Phillips of Atlanta, Ga., maid of honor, who chose a dark brown wool gaberdine suit with matching accessories and a corsage of white carnations.

David L. Black of Milledgeville was Mr. Martin's best man. A. C. Flanders and Ralph Greene of Oak Ridge acted as ushers.

Mrs. Martin graduated from Georgia State College for Women in Milledgeville with a BS degree in biology and chemistry and is now employed by the Carbide Carbon Chemical Corp. in Oak Ridge.

Mr. Martin is a graduate of Georgia Military College, Milledgeville, and Mercer University. He is a member of the Sigma Nu Fraternity and served in the Navy for three years as pharmacist's mate.

Following a brief wedding trip the couple are now at their home in Knoxville, Tenn.

## CANAL POINT GIRL SCOUTS

The Girl Scouts of Canal Point had their regular meeting Friday at the American Legion Hall. We stood in a horse-shoe formation and pledged allegiance to the American Flag and gave the Girl Scout promise, laws, slogan and motto. We divided into patrols, paid the dues, had the roll call and studied the History of Girl Scouts. We were very glad to have a visitor, Mr. Tommy Griffith of Canal Point. He taught us how to use our great American Flag. We enjoyed his visit very much. When the meeting was adjourned the "Court of Honor" was held.

## Governor Believes As We Do About Telephone Company

TALLAHASSEE — Telephone companies, which for years have been allowed to run their lines through State property at no cost, may have to figure on a charge from now on.

When the Southeastern Telephone Co. asked for an easement on land of Florida A. and M. College for negroes here, Gov. Warren asked "what are they paying?"

Secretary William F. Powers of the State Board of Control replied it was not customary to charge telephone companies for use of college property for their lines.

"You have to pay them for everything or they cut off your phone," the Governor said. "They've threatened to cut mine off several times."

"I never heard of a telephone company being a charitable corporation and if you don't dispense charity, I don't think you ought to receive it."

Mr. and Mrs. Norwood Guthrie of Miami were guests of his parents, Mr. and Mrs. I. S. Guthrie, over the weekend.

## Missionary To Talk To Lions And Rotes

You will meet the South Americans when you listen to the address the Rev. L. K. Anderson plans to give at the joint luncheon meeting of the Pahokee Rotary and Lions Club on Thursday, January 27 at the Pahokee Woman's Club building under auspices of the Florida Chain of Missionary Assemblies.

Dr. Anderson is an authority on the entire Latin American world, having traveled extensively not only through South and Central American and Mexican cities but also into the outposts where he has met and talked with Indians and other natives.

As secretary of the Board of Foreign Missions of the Presbyterian Church, he has made several visits to Mexico, Guatemala, Colombia, Venezuela, Chile, Brazil, and other countries.

These trips have taken him into the interior outposts of pioneer missionary activity where new emphases are being made to take the Gospel to neglected people, particularly the Indians living in isolated areas. Opportunities have also been given him to discuss the future of Protestant missions in Latin America with church and government leaders in these various countries as well as with representatives of the United States government stationed in Latin America.

## Wildlife Is Feature Sportsman's Show

MIAMI—When the first Miami Sportsman's Show opens at Dinner Key January 20-29, there will be visualized for the vast visitor population as well as the home folks, the true picture of outdoor recreation and wildlife of this tropical area, according to plans announced by Grover Theis and Kay J. Kennedy, directors of the event under the auspices of the American Veterans Committee.

While primarily a trade event to display the latest in equipment and gear for all kinds of sports activity, there will also be entertainment features and the greatest display of community, club, civic and educational participation in the great outdoors. A standard casting tank will dominate the big hall on which leading casting experts will demonstrate their skills. The Florida Game and Fresh Water Commission will have a big exhibit showing live native animals, fishes and birds. The Girl and Boy Scouts will have full encampments showing practical tropical woodcraft and field craft containing many helpful hints for adult campers and trappers.

Tennis and golf pros will give clinics. The Audubon Society, the South Florida Sportsman's Club, the Miami Beach Anglers Club, the various fishing tournaments will have displays. Moving pictures

of sports and of outdoor life and wildlife will be almost constantly running. A statewide Skish Tourney will be held right in the building, the first time at any sportsman's show.

The site of the show will be two Navy hangars which have been extensively remodelled by the City of Miami. The famous Miami Boat Show was held there last year and the American Legion had its convention there last October.

## Sanlando Springs New Attraction

ORLANDO — Central Florida's newest outdoor attraction is the scenic boat tour through tropical gardens at Sanlando Springs, located on U. S. Highway No. 17, midway between Sanford and Orlando. Similar to the types now in use at Silver Springs and Cypress Gardens, the fleet of silent electric boats have been installed on the scenic waterways of Sanlando Springs, following a winding course through the tropical gardens and natural jungles.

Under the direction of L. R. McGuire, the tour boats, accommodating 15 passengers, cruise through crystal clear water coming from the 15 million gallons daily flow of the natural springs. Quietly cruising amid the colorful splendor of blooming azaleas and giant palm trees, the scenic trip requires approximately 20 minutes and guides explain the nature of tropical plants and report the history of the natural wonderland. The price of the cruise is 30 cents.

Sanlando Springs has been proclaimed one of the outstanding tourist attractions in Florida and the new management has announced plans for improvements and additional features. In addition to swimming in the pure, clear spring water at constant 72 degrees, paths through tropical gardens, modern restaurant, gift shop and spacious picnic grounds are inviting attractions to visitors the year around.

Community and county exhibits in the 1949 Central Florida Exposition to be held in Orlando, February 21-26, promise to be more numerous and more elaborate than ever shown before, according to general manager Crawford Bickford.

## Tampa University May Benefit From "Santa Claus Letter"

TAMPA—It all started through a "letter to Santa Claus" but it may result in really filling the stockings of the University of Tampa.

Last December 16, Mrs. Grace Ford Lyle, civic minded Tampa and loyal supporter of the University of Tampa, suggested in a letter to Santa, printed in the Tampa Daily Times, that everyone in Tampa and South Florida contribute \$1 to the University's Endowment Fund and help raise the money to enable the school to become fully accredited.

Dave Smiley, publisher of the Times, commended her suggestion editorially and has publicized the idea to the extent that several thousand dollars in small contributions have been received.

Al South Florida would benefit if the University becomes accredited and the appeal is now being extended to residents of neighboring communities to join the march of dollars for the University of Tampa. If you want to help just enclose a dollar bill in an envelope and mail it to the Endowment Fund, University of Tampa.
